

Manoj Depuri Product/UX/UI Designer

manojdepuri64@gmail.com | Cleveland, OH | +1 (216) 256-3059 | [linkedin.com/in/manoj-depuri](https://www.linkedin.com/in/manoj-depuri)

Profile Summary

UI/UX Designer and Product Designer with 3+ years of experience designing web and mobile applications from research to high-fidelity prototypes. Good in Figma, Adobe XD, Miro, FigJam, Photoshop, and Illustrator, with expertise in user research, wireframing, prototyping, design systems, usability testing, responsive design, and WCAG accessibility. Experienced in collaborating with Agile teams to deliver scalable, user-centered products aligned with business and users.

SKILLS

Design & Prototyping: Figma (Design Systems, Auto Layout, Components, Variables), Adobe XD, Framer, Webflow, Anima, Interaction Design, Visual Design, Responsive Design, Mobile & Web Design, High-Fidelity Mockups, Prototyping

UX Research & Testing: User Research, User Interviews, Usability Testing, A/B Testing, Heuristic Evaluation, Competitive Analysis, Persona Development, Journey Mapping, Affinity Mapping, Google Analytics

UX Foundations: Wireframing, User Flows, Information Architecture, Design Systems, Component Libraries, Accessibility (WCAG 2.2), Inclusive Design, Accessibility Audits, Human-Centered Design (HCD), Typography, Microinteractions, Design Thinking

Technical: HTML5, CSS3, JavaScript (ES6+), React, REST APIs, Git, GitHub, Design Handoff, Agile, Scrum

Collaboration & Project Management: FigJam, Miro, Jira, Confluence, Stakeholder Management, Developer Collaboration, Documentation, Sprint Planning

Professional Experience

Product Designer, Hubspot

Mar 2026 – Present | USA

- Led the product design for SaaS web and mobile applications, conducting user research, competitive analysis, information architecture, user flows, wireframing, prototyping, and high-fidelity UI design using Figma, Adobe XD, Framer, and FigJam.
- Designed and maintained scalable design systems, reusable components, and responsive interfaces with Figma Auto Layout, Webflow, and Anima, ensuring WCAG 2.2 compliance and seamless developer handoff.
- Validated design decisions through usability testing, A/B testing, accessibility audits, and Google Analytics, leveraging data-driven insights to improve user engagement, task completion, and overall product usability.
- Collaborated with Product Managers, Engineers, and Agile cross-functional teams, applying HTML, CSS, JavaScript, React, REST APIs, and Git/GitHub knowledge to deliver user-centered solutions aligned with business objectives.

Website Design and Support Assistant, Cleveland State University

Jan 2025 – May 2025 | USA

- Collaborated with university stakeholders, designers, and developers to enhance website usability, align interface updates with organizational goals, and improve project delivery efficiency by 20%.
- Designed and enhanced responsive web pages using Figma, conducting user research, wireframing, prototyping, and UI improvements to deliver intuitive and accessible digital experiences.
- Streamlined website design-to-development handoffs by implementing Figma and Anima workflows, partnering with developers to ensure pixel-perfect, cross-browser, and mobile-responsive implementation.
- Built and maintained reusable UI components and standardized design assets using Figma Auto Layout, improving design consistency by 40% and reducing update and maintenance effort.
- Supported ongoing website maintenance by validating designs with stakeholders, ensuring WCAG accessibility compliance, resolving UI issues, and delivering seamless user experiences across university web platforms.

UI/UX Developer, Quality Excellence

Aug 2022 – Jul 2024 | Hyderabad, India

- Led end-to-end UI/UX for responsive SaaS web and mobile apps—user research, IA, flows, wireframes, prototypes, and high-fidelity UI using Figma, Adobe XD, Framer, and FigJam.
- Designed scalable design systems and responsive components in Figma, Webflow, and Anima, ensuring WCAG 2.2 compliance and smooth developer handoff; cut design inconsistencies by 30%.
- Designed dashboard and workflow UIs for IT, healthcare, education, and transportation; used usability/A–B testing, accessibility audits, and Google Analytics to boost engagement, task completion, and efficiency by 25%.
- Collaborated with Product Managers, Engineers, and Agile cross-functional teams, utilizing HTML5, CSS3, JavaScript, React, REST APIs to create technically feasible, responsive designs and accelerate product delivery from concept to production.
- Championed Human-Centered Design and Design Thinking to translate business needs into data-driven, accessible designs, boosting user satisfaction by 35% and aligning with product strategy.

PROJECT

RaceTrack Connect - Product Designer (Independent)

- Single-handedly designed a full-scale motorsport booking ecosystem - reservations, insurance, rentals, social invites - from research to 40+ production-ready screens, demonstrating true 0-to-1 product design ownership.

EDUCATION

Master of Science in Computer Science, Cleveland State University

Aug 2024 – May 2026 | USA

Bachelor of Technology, Marri Laxman Reddy Institute of Technology & Management

Jul 2019 – Aug 2023 | India
